

# Jennings Environmental Center

<http://www.dcnr.pa.gov/StateParks/FindAPark/JenningsEnvironmentalEducationCenter/Pages/default.aspx>

724-794-6011

**Description:** Teaches kids about wildlife using the summer reading theme by CSLP.

Have you ever looked at the vastness of the night sky and wondered about those twinkling lights? Learn about our planets, comets and the stories behind several constellations as well as why the Northern Lights appear. I'll also discuss the new Space Corps and becoming an astronaut. If you think this program may be of interest to the children at your library, please call Miranda Crotsley at 724-794-6011 to schedule a day for me to present it.

Alternate contact: Deborah Sale [dsale@pa.gov](mailto:dsale@pa.gov)

**Rates:** Free

**Recommended by:** Jen @ Mars, many libraries in the district
