**Description:** Pennsylvania Woodmobile is a traveling exhibit that provides information on the state's forest resource and the state's forest products industry. Visitors to the exhibit will see how forests of Pennsylvania have shaped history of the state and nation, learn how today's forest differs from 100 years ago, touch various species produced in Pennsylvania, and use touchscreen technology to interact with various threats to the forests such as invasive insects and plants, diseases and white-tailed deer. They will also learn about Pennsylvania's forest products industry, see how products are made, learn how the forest is managed in a sustainable fashion and experience how common and unusual forest products touch our lives every day.

Per website: All venue requests must be made in writing by using REQUEST FORM FOR WOODMOBILE. Form is located on website.

Contact is Jonathan Geyer, Hardwoods Development Specialist.
